 Adrenalectomy, effect on course of experimental renovascular hypertension, 3
 β -Adrenergic blocking drug, ICI 50172, in dysrhythmia of heart failure, 34
 Air sampling for meningococci and adenoviruses, 72
 Aldosterone hypersecretion in "non-salt-losing" congenital adrenal hyperplasia, 50
 Allergy, 24-5
 — to house dust, mites as cause of, 24
 Alveococcosis in some endemic regions of Siberia, 17
 Amino acid pattern in plasma in kwashiorkor and marasmus, 21
 Amyl nitrite inhalation as screening test for hypertrophic subaortic stenosis, 34
 Anaemia, haemolytic, autoimmune, during mefenamic acid treatment, 44
 —, —, penicillin-induced, 44
 —, iron deficiency, gastrointestinal secretions in, effects on iron absorption, 42
 —, megaloblastic, in myelocytosis, 43
 —, pernicious, in rheumatoid arthritis, 53
 —, —, thyrotoxicosis, clinical and precursory forms, 43
 —, sickle-cell, benign in patients over 30 years of age in West Indies, 44
 Aneurysm, ventricular, clinical diagnosis and prognosis, 35
 Angiotensin pressor dose in hypertension, correlation with plasma renin activity, diagnostic implications, 38
 Anorexia nervosa, clinical features and long-term follow-up study, 58
 —, hypercarotenaemia in, 59
 Antibiotics, *in vivo* penetration into sputum in mucoviscidosis, 68
 Antidiuretic hormone, inappropriate secretion caused by obstruction of ventriculoatrial shunts, 56
 Aorta, see Subaortic
 Appendicitis, acute simple, histochemical study, 10
 Appendix, total inversion, in children, as alternative to incidental appendectomy, 65
 Arrhythmia, propranolol quaternary analogue, ICI 46037, in, 12
 Arteriography, lower extremity, reactive hyperaemia in, 77
 — of intestinal adhesions, 77
 —, selective visceral, in location of bleeding point in gastrointestinal haemorrhage, 76
 Arthritis, gonococcal, clinical forms, 18
 —, rheumatoid, joint tenderness in, assessment with articular index, clinical studies, 53
 —, —, ocular toxicity of chloroquine in, clinical assessment, 54
 —, —, pathological fracture of odontoid process in, 79
 —, —, pernicious anaemia in, 53
 —, —, pleural effusion in, 48
 Asthma, bronchial, allergic identity between common floor mite and house dust as causative agent in, 24
 —, —, allergic, disodium cromoglycate treatment, 24
 —, —, mites and house-dust allergy in, 24
 —, *Candida albicans* precipitins in, 25
 —, mucoid impaction of bronchi in relation to, 6
 Autoimmunity, role in occurrence of temperature reactions in damage to blood-brain barrier of traumatic and vascular origin, 1
 Azathioprine in chronic hepatitis, comparison with prednisolone, 29
 —, —, systemic scleroderma, 61
 Behaviour disorder, "minimal cerebral dysfunction" in children, electroencephalographic study, 70
 Benziodarone in gout, 54
 Biguanides, effect on intestinal absorption of glucose, 52
 Bile-salt deconjugation in stagnant-loop syndrome, 31
 Bilirubin, see Hyperbilirubinaemia
 Blindness, lead poisoning in children with, 69
 Blood, see also Erythropoiesis; Haemochromatosis; Haemophilia; Leucocyte; Leukaemia
 —, circulation, see Circulation
 —, extrarenal, computer assisted background subtraction in renography, clinical use, 76
 —, groups (ABO) and secretor status, influence on bleeding and on perforation of duodenal ulcer, 28
 —, transfusion, hepatitis-free plasma protein solution in, 42
 Body temperature reactions to brain damage, role of autoimmunity in, 1
 Bone marrow colony-stimulating activity of sera in infectious mononucleosis, 11
 Brain damage, temperature reactions to, role of autoimmunity in, 1
 —, infarction, correlation of pathological and radiological findings, 74
 —, softening and intracerebral haemorrhage, differentiation by ultrasonic echoencephalography, 55
 —, tumour metastases, whole-brain irradiation for, improvement in quality of survival, 79
 —, —, radium therapy, echoencephalographic management, 79
 Breast carcinoma, advanced, total hypophysectomy in, 80*
 Bronchitis, chronic, antibody to *Mycoplasma pneumoniae* in, 11
 —, —, obstructive, mucoid impaction of bronchi in relation to, 6
 Bronchopneumonia, severe, in young children, 67
 Bronchus, mucoid impaction in relation to asthma and chronic obstructive bronchitis, 6
 Burns in aetiology of valvular heart disease, 33
 Calcification, microcrystalline conjunctival, in renal failure, useful clinical sign, 49
 Calculus, biliary, see Cholelithiasis
Candida albicans precipitins in respiratory disease, 25
 Carcinoma, see also Organ affected
 —, metastasis from one to another, 5
 Cardiomyopathy, obstructive, left ventricular myotomy in, medium-term results, 34
 Cardiovascular system, 32-40
 Carotene, see Hypercarotenaemia
 Cerebrospinal fluid lactate dehydrogenase activity in children with bacterial and nonbacterial meningitis, 70
 Chemotherapy, 14
 Children, see also Infants
 —, leptospirosis in, 17
 —, liver disease in, regional infusion therapy, 65
 —, nonbacterial or thrombotic endocarditis in, 8
 Chloroquine, ocular toxicity in rheumatoid arthritis, clinical assessment, 54
 Cholelithiasis and myocardial infarction, connection in a necropsy series, 7
 Cholera susceptibility of family contacts, relation of vibriocidal antibody titre to, 11*
 Cholestyramine resin, response of hyperlipoproteinaemia to, 26
 Cineradiography in evaluation of gastrointestinal disease using morphine, 75
 Circadian rhythm of plasma 11-hydroxycorticosteroids in psychiatric disorders, 57
 Circulation, cerebral, effect of treatment of myxoedema on, 50
 —, ventriculoatrial shunt obstruction, inappropriate antidiuretic hormone secretion in, 56
 Circulatory insufficiency in early childhood, cardiac glycoside treatment, 66
 Cirrhosis, see Liver
Clostridium welchii, electron microscopic study during toxin formation, 11
 Coeliac syndrome, follow-up study, 30
 —, —, small-bowel cell loss and weight loss in, 29
 —, —, small intestine glutaminase deficiency in, 30
 Colitis, ulcerative, chronic, mycoplasma in, a negative study, 31
 Concussion, cerebral, of mild and moderate degree, objective diagnostic tests, 55
 Convulsions in infants and children, correlation with serum magnesium levels, 69

SUBJECT INDEX

Coronary atherosclerosis, incomplete antibodies to heart tissue in blood of patients with, 35

— heart disease, nonfatal, early precursors of, 35

Corticosteroid response to synthetic lysine-vasopressin, natural vasopressin, saline solution, and venepuncture, 51

— treatment of pemphigus, pathological anatomy, 5

Crohn's disease, vascular changes in, 10
Cryothalamectomy in Parkinsonism, mortality and morbidity, statistical analysis of 2,868 operations, 56

Cystic fibrosis, *see* Mucoviscidosis; Pancreas

Cystinuria, medical treatment, 26

Cytomegalovirus infections, acquired, 15

Dermatology, 60-2

Dermatosis, scaly, urea cream application in, 60

Desferrioxamine in thalassaemia, 44

Dextran, low molecular weight, in myocardial infarction, 38

Diabetes mellitus, gallbladder disease in, 51

Digitalization, rapid, after acute myocardial infarction, haemodynamic effects, 37

Disodium cromoglycate in allergic bronchial asthma, 24

Diuresis, *see also* Antidiuretic

—, haemodynamic effects at rest and during intense upright exercise in impaired cardiac function, 32
— on immersion, modification by hypnosis, 57

Doctors, *see* Medical practitioners

Dysphagia in ocular muscular dystrophy, 56

Dysrhythmia in acute myocardial infarction, relation of metabolic acidosis to, 36

— heart failure, ICI 50172 in, clinical trial, 34

Echinococcus parasite infestation in some endemic regions of Siberia, 17

Echoencephalography in management of patients receiving radium therapy, 79

—, ultrasonic, in differentiation of intracerebral haemorrhage and brain softening, 55

Effusion, chronic pericardial, in post-radiation pericarditis, 79

—, subdural, in infancy, 70

Electroencephalogram in children with minimum cerebral dysfunction, 70

Electroencephalography, early, after resuscitation for cardiocirculatory arrest in children, prognostic evaluation, 66

Electrolytes in prevention of myocardial necrosis, experimental study, 12

Embolism, pulmonary, detection by scanning, 74

Enanthems, viral studies in, 15

Endocarditis, nonbacterial or thrombotic in neonatal period, infants, and children, 8

Endocrinology, 50-2

Entamoeba histolytica infection, clinical observations with laboratory study of serological titres and virulence of amoeba to rats, 21

Epilepsy, anticonvulsant action of anticholinergic drugs in, 13

Erythroblastosis foetalis, hypoglycaemia and hyperinsulinism in, 64

Erythromycin in nongonococcal urethritis, 18

Erythropoiesis after bilateral nephrectomy, 41

Ethacrynic acid in acute pulmonary oedema, comparison with mercaptopurine, 33

Exercise, moderate, in healthy middle-aged subjects, fibrinolytic response to, 2

Farmer's lung, acute and chronic stages, pathological study, 6

Ferrous sulphate-ascorbic acid mixtures, therapeutic applications, 12

Fibrinolytic activity decrease associated with cutaneous vasculitis, 60

— response to moderate exercise in healthy middle-aged subjects, 2

Fluoroscopy, amplified, guidance in needle aspiration biopsy of localized pulmonary lesions, 74

Food poisoning and surgical emergencies, differential diagnosis, 27

Foot-and-mouth, *see* Hand-foot-and-mouth

Fracture, pathological, of odontoid process in rheumatoid arthritis, 79

Gallbladder disease in diabetes, 51

Gastric acid, radiotelemetric measurement compared with histological findings and maximal histamine test, 28

— function, effects of indomethacin on, 13

Gastroenterology, 27-31

Gastrografin, urinary excretion in abdominal emergencies, 75

Gastrointestinal disease, evaluation with morphine, cineradiographic study, 75

Gentamicin in infectious diseases, 18 months' experience, 14

Glucose absorption, intestinal, effect of biguanides on, 52

— uptake in forearm muscles of non-diabetics, relation to endogenous serum insulin concentration, 52

— 6-phosphate dehydrogenase-deficient infants, hyperbilirubinaemia and kernicterus in, 63

Glutaminase deficiency in jejunum in coeliac syndrome, 30

Glycoside, cardiac, in circulatory insufficiency of early childhood, 66

Gonorrhoea, acute, recent trends in treatment, 18*

— treatment, best follow-up examination time for syphilis after, 20

Gorlin's syndrome, 62

Gout, benzodiarone treatment, 54

Granulomatous disease, chronic, of childhood, radiological manifestations, 78

Growth hormone, diabetogenic action, glucose-fatty acid interrelationships, 50

—, metabolic effects in African pygmy, 51

— response to synthetic lysine-vasopressin, natural vasopressin, saline solution, and venepuncture, 51

— of children, effect of early malnutrition on, 21

Haemagglutination test, Haven, in infective hepatitis, 16

Haematology, clinical, 41-5

Haematoma, subdural, and effusion in infancy, 70

Haematuria, recurrent, in children, 68

Haemochromatosis, gastrointestinal secretions in, effect on iron absorption, 42

Haemoglobin levels in hypertension during medical treatment, 39

Haemophilia, latent, gastrointestinal haemorrhage and, 41

Haemorrhage, cerebral, in pregnancy, 55

—, gastrointestinal, and "latent" haemophilia, 41

—, location of bleeding point by selective visceral arteriography, 76

—, intracerebral, and brain softening, differentiation by ultrasonic echoencephalography, 55

—, retinal, in newborn infants, 63

Hand-foot-and-mouth syndrome in man, 16

Head injury, objective diagnostic tests of mild and moderate concussion in, 55

Heart, *see also* Coronary; Myocardial infarction; Pericarditis

— arrest in children, resuscitation after, prognostic evaluation of early electroencephalographic findings, 66

— defect, ventricular septal, review, 33*

— disease, congenital, long-term results of correction in early childhood, 32

—, ischaemic, in male medical practitioners, 71

—, —, meal frequency and, 35

—, —, valvular, burns in aetiology of, 33

— tissue antibodies, incomplete, in blood of patients with coronary atherosclerosis, 35

Heparin in delayed kidney transplant function, 49

Hepatitis, chronic, effect of prolonged suppressive treatment, comparison of azothioprine and prednisolone, 29

—, infective, Haven haemagglutination test in, 16

Heroin intoxication, acute, radiological findings, 78

Herpes simplex in newborn infants with recurrence during infancy, 63

Herpesvirus hominis, significance in respiratory secretions, 11

Hydrocortisone in myocardial infarction, 38

11-Hydroxycorticosteroid, plasma levels, Circadian rhythm in psychiatric disorders, 57

Hyperaemia, reactive, in lower extremity arteriography, evaluation, 77

Hyperbilirubinaemia in glucose-6-phosphate dehydrogenase deficient infants, 63

—, neonatal, long-term neurological deficits with, 64

Hypercarotenaemia in anorexia nervosa, 59

Hyperinsulinism in infants with erythroblastosis foetalis, 64

Hyperlipoproteinaemia response to administration of cholestyramine resin, 26

Hypersensitivity pneumonitis, clinical study, 25

Hypertension, haemoglobin values during medical treatment, 39

—, α -methyldopa treatment, effect on renal function, 40

—, plasma renin activity and angiotensin pressor dose in, correlation and diagnostic implications, 38

—, propranolol treatment, ineffectiveness in Jamaicans, 40

—, renovascular, experimental, effect of adrenalectomy on course of, 3

Hyperthyroidism, *see* Thyrotoxicosis

Hypnosis in modification of immersion diuresis, 57

Hypoglycaemia in infants with erythroblastosis foetalis, 64

Hypoventilation, alveolar, in obesity, progesterone treatment, 48

Hypoxia in chronic obstructive pulmonary disease, effect of oxygen breathing on, 47

SUBJECT INDEX

Ichthyosis, urea cream in treatment, 60
ICI 50172 in dysrhythmia of heart failure, 34

Imferon, *see* Iron-dextran

Immersion diuresis, modification by hypnosis, 57

Immunoglobulin antibody test, specific, in neonatal congenital syphilis, 19
— levels in serum in syphilis, 19

Indomethacin, effects on gastric function, 13

— in low back pain with and without radicular involvement, 53

Industrial medicine, 71-3

Infants, bronchopneumonia in, 67

—, newborn, herpes simplex infection in, with recurrence during infancy, 63

—, —, intestinal obstruction due to meconium plug syndrome in, 64

—, —, retinal haemorrhage in, 63

—, nonbacterial or thrombotic endocarditis in, 8

Infection after splenectomy in children, hazards of, 67

Infectious diseases, 15-7

Influenza virus vaccines, comparison of live and killed, report to MRC Committee, 72

Infusion, regional, in liver disease in children, 65

Insulin, *see also* Hyperinsulinism

—, endogenous, concentration in serum of nondiabetics, relation of glucose uptake in forearm muscles to, 52

Intervertebral disc, *see* Spine

Intestinal absorption of glucose, effect of biguanides on, 52

— obstruction in newborn, due to meconium plug syndrome, 64

Iron absorption, effects of gastrointestinal secretions in iron deficiency anaemia and in haemochromatosis on, 42

Iron-dextran infusion, single massive, lymph node enlargement after, 42

Irradiation of whole brain for metastatic carcinoma, improvement in quality of survival, 79

—, pericarditis with chronic pericardial effusion after, 79

Kwashiorkor, effect on growth and mental development of children, 21

—, plasma amino acid pattern in, 21

Medroxyprogesterone treatment, effect on testicular function, 13

Mefenamic acid, autoimmune haemolytic anaemia during treatment with, 44

Meningitis after splenectomy in children, 67

— in children, lactate dehydrogenase activity in cerebrospinal fluid in, 70

—, paragonimus, 23

Meningococci, large-volume air sampling for, 72

Mental development of children, effect of early malnutrition on, 21

Metabolism, 26

Methotrexate in psoriasis, 61

α -Methyl dopa, effect on renal function in hypertension, 40

Methysergide in mania, 57, 58

Microbiology, 11

Mononucleosis, infectious, bone marrow colony-stimulating activity of serum in, 11

Morphine in evaluation of gastrointestinal disease, cineradiographic study, 75

Mortality of several occupational groups, prospective study, 73

Mucoviscidosis, *in vivo* penetration of antibiotics into sputum in, 68

Muscular dystrophy, ocular, involvement of muscles of swallowing in, 56

Mustard gas as cause of respiratory neoplasms, 73

Mycoplasma in chronic ulcerative colitis, a negative study, 31

— *pneumoniae* antibody in normal subjects and in chronic bronchitis, 11

Myeloid leukaemia, megaloblastic anaemia in, 43

Myocardial infarction, acute, rapid digitalization after, haemodynamic effects, 37

—, —, relation between metabolic acidosis and cardiac dysrhythmias in, 36

—, —, sleep regimen in, 37

—, —, Sodi-Pallares' treatment, modification, 37

— and cholelithiasis, connection in a necropsy series, 7

—, diagnosis by assessing serum myokinase activity, 1

—, hydrocortisone treatment, 38

—, immunomorphological aspects, 4

—, long-term electrocardiographic evolution, 36

—, low molecular weight dextran in, 38

— necrosis, electrolytes in prevention of, experimental study, 12

Myocardium, normal and diseased vascular pattern of, 7

Myokinase activity in serum in diagnosis of myocardial infarction, 1

Myxoedema, cerebral-cortex perfusion rates in, 50

SUBJECT INDEX

Obesity, alveolar hypoventilation in, progesterone treatment, 48
 Odontoid process fracture, pathological, in rheumatoid arthritis, 79
 Oedema, acute pulmonary, ethacrynic acid in, comparison with mercaptopurine, 33
 —, pulmonary, without cardiomegaly, radiological study, 74
 Ornithosis, serological diagnosis, 15
 Osteomyelitis, chronic staphylococcal, oral penicillin in, 14
 Oxygen, *see* Hypoxia

Paediatrics, 63-70. For details *see* Children; Infants
 Paget's disease of bone, cardiovascular complications, 32
 Pain, low back, with and without radicular involvement, indomethacin treatment, 53
 Pancreas carcinoma, cytological examination, 27
 —, cystic fibrosis, nail clippings test in, 65
 Paragonimiasis involving meninges, 23
 Paraquat poisoning, lung transplantation in, 48*

Parasitology, 11
 Parietal-cell antibody, appearance in patients undergoing gastric surgery, 5
 Parkinsonism, anticholinergic activity of anticholinergic drugs used in, 13
 —, cryothalamectomy in, mortality and morbidity, statistical study of 2,868 operations, 56
 Pasteurellosis, pseudotuberculous, 17
 Pathology, 1-10
 Pemphigus and corticosteroid therapy, pathological anatomy, 5
 Penicillin allergy, detection by *in vitro* passive sensitization and histamine release from human and monkey lung, 25

— in early syphilis, cerebrospinal fluid findings after, 20
 — induced haemolytic anaemia, 44
 —, oral, in chronic staphylococcal osteomyelitis, 14
 Pericarditis, postirradiation, with chronic pericardial effusion, 79
Pharmacology, 12-3
 Pharyngitis, nonstreptococcal, 16
 Phenacetin nephropathy, 9
 Phenolsulphonthalein, renal clearance of, clinical and experimental study, 49
 Phenylketonuria, atypical, with borderline or normal intelligence, 70*

Pigeon breeders' disease, a hypersensitivity pneumonitis, clinical study, 25
 Pleuritis, rheumatoid, with effusion, 48
 Pneumonia, *see* Bronchopneumonia
 Pneumonitis, hypersensitivity in pigeon breeders, clinical study, 25
 Prednisone and vincristine in acute leukaemia in children, 66

Pregnancy, cerebral haemorrhage in, 55
 —, smoking in, effect on maternal blood pressure, pregnancy outcome, baby weight and growth, and other related factors, 71
 Pressure application to skin, delayed local wealing after, 60
 Proctitis, ischaemic, report of ten cases, 31
 Progesterone in alveolar hypoventilation associated with obesity, 48
 Propranolol in hypertension, ineffectiveness in Jamaicans, 40

Radiology, 74-80

Radium therapy of brain tumours, echoencephalographic management, 79
 Reflux, vesicoureteric in children, treatment, 68
 Renin activity in plasma in hypertension, correlation with angiotensin pressor dose, diagnostic implications, 38
 Renography modified by computer assisted blood background subtraction, clinical use, 76
 Respiratory distress syndrome, neonatal, neurological status of survivors, 64
 — system, 46-8

Resuscitation of children after unexpected cardiocirculatory arrest, prognostic evaluation of early electroencephalographic findings, 66
 Rh immunization, prevention by 1-ml injections of RH₀ immune globulin, 42
 Rhabdomyosarcoma, radiotherapy, 80
 Rheumatic diseases, 53-4
 Rubella immunity in adult females in Paris area, 15
 Rubidomycin in acute leukaemia in adults, 45

Sarcoidosis, immunohistochemistry, 4
 —, pulmonary, alteration in delayed sensitivity, clinical evaluation, 46
 —, —, pathological and physiological correlations, 46
 Schistosomiasis, urinary, antimonial drugs in, comparative trials, 23
 Schizophrenia, behavioural and biochemical alterations in, 59
 Scleroderma, systemic, azathioprine treatment, 61
 Shunt, *see* Circulation
 Skin carcinoma, squamous cell, in psoriasis vulgaris, 62
 — heterograft, survival under treatment with antilymphocytic serum, 2
 Sleep regimen in acute myocardial infarction, 37
 Smoking, *see* Tobacco

Spine, intervertebral disc and adjacent vertebrae, pseudoinfections of, radiological study, 79
 Spirochaetes, recovery from monkey by passive transfer from human late seronegative syphilis, 19
 Splenectomy in children, hazard of infection after, 67
 Splenomegaly in children in Uganda, relation to malaria, 22
 Stagnant-loop syndrome, bile salt deconjugation and steatorrhoea in, 31
 Steatorrhoea in stagnant-loop syndrome, 31
 Stomach, *see also* Gastric
 — carcinoma, hypothalamic neurosecretion in, 8
 —, innervation after vagotomy, tolbutamide test for, clinical correlations and interpretation, 27
 — surgery, parietal-cell antibody in patients undergoing, 5
 Subaortic stenosis, hypertrophic, amyl nitrite inhalation as screening test for, 34
 Sulphonylurea treatment, prolonged, pathological findings after, 52

Swallowing muscles, involvement in ocular muscular dystrophy, 56
 Syphilis after gonorrhoea treatment, best follow-up examination time for, 20
 — diagnosis by VDRL test, significance of "rough" results, 18
 —, early, penicillin treatment, cerebrospinal fluid findings after, 20
 —, late seronegative, in man, recovery of spirochaetes in monkey by passive transfer from, 19
 —, neonatal congenital, specific IgM antibody test in, 19
 —, primary and secondary, country of origin study, 20*
 —, serum immunoglobulin levels in, 19

Temperature, *see* Body temperature
 Testis function, effect of medroxyprogesterone treatment on, 13
 Thalassaemia, desferrioxamine in, 44
Therapeutics, 12-3
 Thorotrast, long-term hazards, 77
 Thyrotoxicosis, pernicious anaemia in, clinical and precursory forms, 43
 Tobacco smoking in pregnancy, effect on maternal blood pressure, pregnancy outcome, baby weight and growth, and other related factors, 71
 Tolbutamide test for assessment of degree of gastric vagal innervation after vagotomy, clinical correlations and interpretation, 27

 Acid-base balance in newborn infants, 152*
 Acromegaly, serum insulin levels in, comparative investigations by radioimmunoassay and biological methods, 135
 Addison's disease, idiopathic, and hypoparathyroidism, clinical and genetic heterogeneity, 159
 Adrenal cortex in primary aldosteronism, morphological findings, 85
 Adrenergic blocking agent in cardiopathy of Chagas' disease, 111
 Aircraft spraying of malathion, effect on urban population, 164
 Alcohol dehydrogenase activity in serum as indicator of hepatic cirrhosis, 107
 — ingestion, effect on serum lactate levels, influence of phenformin administration on, 137
 Alcoholism, chronic, transient thrombocytopenia in, 127
 Aldosterone excretion, effect of glucocorticoids on, in normal subjects, in essential hypertension, and in primary aldosteronism, 123
 — in normal subjects, in essential hypertension and in primary aldosteronism, effect of corticotrophin on, 122
 Aldosteronism, primary, aldosterone excretion and plasma renin levels in, effect of corticotrophin on, 122
 —, incidence in uncomplicated essential hypertension, prospective study, 123
 —, morphological findings in adrenal cortex in, 85
 Allergy, 102
 p-Aminosalicylic acid antibodies, demonstration in human serum, 97
 Amoebiasis, intradermal and serological tests for, comparison, 101
 Anaemia, aplastic, in infective hepatitis, 126
 —, haemolytic autoimmune, serological studies with pure anti-immunoglobulin reagents, 126
 —, iron deficiency, association of menstrual iron loss with, community study, 126
 Analgesics, toxic effect on kidneys, histological and bacteriological study, 86
 Angina pectoris, assessment by atrial pacing, 120
 —, correlation of myocardial photo-scanning and coronary angiography in, 166
 —, propranolol in ambulatory treatment of, 120
 —, verapamine in, clinical evaluation, 120
 Angiography, coronary, in angina pectoris, correlation with myocardial photo-scanning, 166
 Antibiotic sensitivity of *Bacteroides fragilis*, *in vitro* study, 94
 Antigen aerosols, specific local and systemic desensitization by, 102
 Antinuclear antibodies, immunofluorescent patterns and specificity, 87
 — factors in rheumatoid arthritis, 86
 Anxiety, physiological indicators of, comparative study, 146
 Aorta, *see also* Subaortic
 — valve replacement by homograft, immediate results and follow-up, 118
 —, significance of coronary artery disease in, 117
 Arginine infusion, non-specificity as test for growth hormone secretion, 135
 Arrhythmia, *see also* Tachyarrhythmia
 —, atrial fibrillation, in mitral valvular disease, relation of left atrial pathology to, 115
 —, disopyramide in, 116
 —, effect of cocarboxylase on different types of, 116
 Arteriography of splenic trauma, 167
 Arteritis, temporal, histological changes in, 83
 Arthritis, *see also* Osteoarthritis
 —, rheumatoid, antinuclear factors in, 86
 —, caeruloplasmin levels and green plasma in, 81
 —, connective tissue of joint capsules in, electrophoretic study, 82
 —, contractures of knee in, treatment, 138
 —, relation between glucose tolerance, plasma insulin, and corticosteroid treatment, 138
 —, serum copper levels in, 138
 Asbestos bodies in lungs and mesothelioma, retrospective examination, 84
 Asbestosis in naval dockyard workers, 163
 Ascites, role in gastroesophageal reflux, 105
 Aspergillosis, allergic, review of 32 cases, 128
 —, bronchopulmonary, natamycin treatment, 129
 —, pulmonary, occurrence in chronic lung disease and significance of diagnostic tests, 129
 —, serological diagnosis, 88
 Aspirin-induced gastrointestinal haemorrhage, effect of particle size of drug on, 93
 Asthma, acute, in children, arterial blood gas tensions and pH in, 156
 —, bronchial, pulmonary circulation in, rheographic studies, 112
 —, serum uric acid levels in, 102
 —, hypnosis in, controlled trial, 102
 —, intractable, sodium bicarbonate in, indications, 132
 Atromid, *see* Clofibrate
 Auscultation of adult heart by machine, 113
 Autoantibodies, anticardiac, circulating, in various clinical forms of rheumatic fever and in tonsillogenic heart lesions, 139
 Aversion therapy for heroin dependence, 149
 Bacteriaemia, streptococcal, in children after dental extractions, 154
Bacteroides fragilis sensitivity to antibiotics, *in vitro* study, 94
 Bagassosis, epidemiological, environmental, and clinical survey, 163
 —, immunological aspects, 163
 Behaviour disturbance after parathyroid adenomectomy, 134
 Bilirubin, *see* Hyperbilirubinaemia
 Blood circulation, *see* Circulation
 — coagulation abnormalities, absence in children with cyanotic congenital heart disease, 158
 — flow, myocardial, measurement by coincidence counting system and single bolus injection of rubidium, 89
 — gas, arterial, tensions and pH in acute asthma in children, 156
 — plasma, green, in women taking oral contraceptives, in pregnant women, and in rheumatoid arthritis, 81

SUBJECT INDEX

- Circulation, arteriovenous shunts in liver cirrhosis, 194
 —, portacaval shunt, cessation of gout after, 190
 Cirrhosis, *see* Liver
 Coffee ingestion, effect on oral glucose tolerance curves in normal subjects, 216
 Colitis, granulomatous, in children, comparison with ulcerative colitis, 232
 —, ulcerative, diagnosis and management of megacolon in, 196
 Colon perforation after exchange transfusion, 230, 231
 Coma, acute hepatic, cross-circulation with baboon and repeated exchange transfusions in, 193
 Coronary artery disease, analysis of 100 cases proved by coronary arteriography, 201
 —, haemodynamic effects of alcohol in, 202
 —, atherosclerosis in persons dying from violence, 171
 Corpus callosum agenesis in children, review of 50 cases, 238
 Corticosteroid(s) abnormalities associated with lung carcinoma, 209
 — in asthma, effect on height of children, 236
 — bronchial asthma, rapid route of administration, 188
 Cough, spasmodic, in children, tonsillectomy for, 232
 Cyanocobalamin metabolism, effect of renal and hepatic disease on, 189
 — uptake by *E. coli*, possible significance in relation to blind loop syndrome, 196
 Cycloserine, bactericidal properties, antagonism to bacteriostatic antibiotics chloramphenicol and tetracycline, 178
 Cystic fibrosis, *see* Pancreas
 Cytomegalovirus complement-fixation antibody levels of leukaemic children, longitudinal study, 234
 — macroglobulin, fluorescent-antibody test for, 175
- Dapsone treatment, death of *Mycobacterium leprae* during, 183
 Depression, atypical puerperal, 226
 —, manic, paternal and maternal abnormalities in, genetic study, 239
 Dermatoglyphics in schizophrenia, qualitative and quantitative studies, 227
 Dermatology, 228
 Desensitization in phobias, prospective trial, 227
 Diabetes, *see also* Prediabetes
 Diabetes mellitus and atheroma, relation of insulin-stimulated lipogenesis in arterial tissue to, 170
 —, early latent, serum insulin in, 217
 —, effect of glymidine on blood sugar level in, 216
 — in benign prostatic hyperplasia, 218
 —, —, mongolism, 226
 —, intrinsic factor antibody, parietal cell antibody, and latent pernicious anaemia in, 218
 —, juvenile, inflammatory cycle in, 169
 —, —, oral glucose tolerance test in siblings, 216
 —, muscle capillary basement membrane in, 173
 Diphenylhydantoin, *see* Phenytoin
 Disodium cromoglycate, inhibitory effects on allergen inhalation tests, 186
 Diverticulosis, colonic, dynamic or disappearing, radiological study, 248
 Down's syndrome, *see* Mongolism
- Doxapram hydrochloride, effect on arousal time after intravenous anaesthesia, 246
 Duodenum aspirate in man, source, 196*
 Dwarfism, pituitary, due to absence or biological inactivity of growth hormone, genetic aspects, 241
 —, —, with high serum levels of growth hormone, 240
 Dysentery, amoebic, niridazole treatment, 184
 —, Sonne, water-borne outbreak, 243
- Effusion, nonrheumatoid pleural, rheumatoid factor in, 210
 Ehlers-Danlos syndrome, X-linked recessive inheritance in, 239
 Electric pulse therapy, repeated application in recurrent auricular fibrillation, 200
 Electrocardiogram of children with lead poisoning, 244
 —, neonatal, effect of timing of umbilical cord clamping on, 230
 Embolism, pulmonary, isoprenaline treatment, haemodynamic and clinical effects, 198
 Endocarditis, enterococcal and streptococcal, vancomycin treatment, 197
 Endocrinology, 213-8
 Epilepsy, psychomotor, oxazepam treatment, 223
 Erythrocyte sedimentation rate increases due to inflammation and to tumours, differentiation, 171
 Ethacrynic acid in meralluride-resistant congestive heart failure, 198
 Eye oscillations and truncal myoclonus, acute syndrome of, 221
- Fibrillation, *see* Arrhythmia
 Fibrinolytic activity of blood, effect of onions on, 207
 Fibrosis, idiopathic diffuse interstitial pulmonary, lung carcinoma and, 209
 Fluid restriction in high-dosage urography, 248
 Folate metabolism in rheumatoid arthritis, 219
 Forensic medicine, 244
- Gas exchange, maternal pulmonary, during normal labour and extradural blockade, 246
 Gastric secretion responses to secretory stimulants, 192
 — studies during chronic haemodialysis, 192
 Gastroenteritis, viral, water-borne outbreak, 243
 Gastroenterology, 191-6
 Genetics, medical, 239-42
 Giddiness in vertebrobasilar arterial insufficiency, 221
 Glomerulonephritis, *see* Nephritis
 Glucagon test in pheochromocytoma, 215
 Glucose infusion, effect on ammonia metabolism in liver failure, 192
 — intolerance in renal failure, 211
 —, oral, tolerance curves in normal subjects, effect of coffee ingestion on, 216
 Glycerol, oral, in functional differentiation of glycogenoses of liver, 193
 Glycodiazine, *see* Glymidine
 Glymidine, effect on blood sugar levels in diabetes mellitus, 216
- Gonadotrophin, urinary, excretion abnormalities in men with 47,XXX sex chromosome constitution, 213
 Gonorrhoea, penicillin-resistant, tetracycline and penicillin with probenecid in, comparative evaluation, 181
 Gout, remission after portacaval shunt, 190
 Graves's disease, long-acting thyroid stimulator of, review, 214*
 — ophthalmopathy, causal relationship between long-acting thyroid stimulator and, 213
 Growth, foetal and postnatal, effect of maternal phenylketonuria on, 233
 — hormone absence or biological inactivity, genetic aspects of pituitary dwarfism due to, 241
 —, high serum levels in pituitary dwarfism, 240
 — level in serum in renal failure, 211
 — secretion, effect of carbohydrate and protein feeding on, 217
 — of nephrotic children, effect of corticosteroid treatment on, 236
- Haemachromatosis secondary to hereditary spherocytosis, 206
 Haematology, clinical, 205-7
 Haemodialysis, chronic, gastric secretory studies during, 192
 —, maintenance, transient and persistent hypercalcaemia in patients on, 211
 Haemoglobin iron malabsorption in pernicious anaemia, 206
 — level of fit elderly people, 205
 Haemolytic disease, ABO, neonatal, diagnosis, 170
 Haemorrhage, gastrointestinal, leucocyte ascorbic acid levels in, 191
 —, idiopathic pulmonary, in the newborn, 172
 Halothane, effect on human airway mechanics, 246
 — induced cardiac disturbances in cardiovascular surgery, intravenous propranolol for, 246
 Hay fever, immunotherapy with ragweed antigen E, comparison with whole pollen extract and placebo, 187
 Head circumference, relation of mental retardation in children to, 237
 Heart, *see also* Coronary; Myocardial infarction; Myocardium
 — block after acute myocardial infarction, demand and fixed-rate pacemakers for, 201
 — disease, congenital, associated with involvement of entire vascular system, 197
 —, —, myocardial infarcts in, 172
 —, —, and scoliosis, 234
 — failure, congestive, meralluride-resistant, ethacrynic acid treatment, 198
 —, left ventricular outflow tract, fixed obstruction to, clinical angiocardiograms in, 197
 —, mitral disease, effect of tourniquet application on pulmonary haemodynamics in, 199
 — rate, foetal, auscultation, assessment of error and significance, 229
 — surgery, cardiac disturbances in relation to halothane anaesthesia in, intravenous propranolol treatment for, 246
 — valve prostheses and homografts, critical analysis, 200*
 —, pulmonary, stenosis of, associated with hypertelorism and Turner's phenotype, 242
 —, —, — in patients with Turner phenotype in the male, 242

- Dermatology**, 309
 Dermatomyositis, methotrexate treatment, 309
 Diabetes, glucose utilization by newborn infants of mothers with, 311
 — mellitus, endocrine organ changes in, necropsy study, 265
 — —, gastric iron binding in, 282
 — —, juvenile, capillary microscopy in, 265
 Diaphenylsulphone, *see* Dapsone
 Diarrhoea, nervous, desensitization treatment in, 306
 Diethyl ether, peripheral vascular effects on isolated forelimb, 321
 Disodium cromoglycate in exercise-induced asthma, 279
 Ductus arteriosus, isolated patent, operative closure in first two years of life, 315
 — —, patent, closure without thoracotomy, technique, 287
 Duodenography, hypotonic, technique, 322
- Electroencephalogram, epileptiform activity in nonepileptic patients, incidence and prognostic significance, 300
 — in multiple sclerosis, reappraisal, 300
 Electromyography in Bell's facial palsy, 299
 Electroretinography in study of impaired visual function in children, 316
 Encephalomyelitis, disseminated, delayed sensitivity to encephalitogenic protein in, 299
 Encephalopathy after portacaval anastomosis, 285
Endocrinology, 295-7
 Enuresis, nocturnal, social, psychological, and neurological factors associated with, 316
 Enzyme changes after direct current countershock, 287
 Epilepsy-like activity in electroencephalogram of nonepileptic subjects, incidence and prognostic significance, 300
 Erythema nodosum leprosum, acute reaction, flufenamic acid treatment, 277
 — —, riminophenazine derivative, B 663, in, 277
 Exercise, effect on heart and pulmonary vasculature, 287
- Fertility, maternal, in mongolism, 304
 Flufenamic acid in acute reaction of erythema nodosum leprosum, 277
 Foetus oxygenation during Caesarean section, 321
Forensic medicine, 320

 — —, long-term prognosis, 311
 Herpes simplex, fatal, in children, clinical, pathological, and virological characteristics, 273
 Hodgkin's disease, diagnosis initially by biopsy, eventual diagnosis after second histological opinion, 265
 Hydroxyproline excretion, urinary, in muscular dystrophy, effect of prednisone on, 303
 Hypercalcaemia due to carcinoma, phosphate treatment, 284
 Hypercholesterolaemia, pentaerythritol tetranicotinate (Percyt) treatment, 284
 Hypoglycaemia, irreversible, complication of alcohol and insulin, 297
 Hypokalaemia, persistent, due to surreptitious vomiting, 281
 Hypothalamic-pituitary disorders, vasopressin test in, 295
- Imipramine and chlorpromazine in depression, comparison, 307
 Immunoglobulins, isantibodies to inherited types of, serological and clinical aspects, 315
Industrial medicine, 317-9
 Infants, low birth weight, morbidity compared to that of "mature" infants, 310
 — — —, reduction of first week mortality rate after phenobarbitone treatment, 310
 — —, newborn, benign familial convulsions in, 311
 — —, biliary atresia in, diagnosis, 313
- Infants, newborn, biliary atresia in, progression and regression of cirrhosis in, 312
 — —, effect of feeding on gastric and oesophageal pressures, 311
 — —, hepatitis in, diagnosis, 313
 — — —, effect of diagnostic laparotomy on long-term prognosis, 312
 — — —, long-term prognosis, 311
 — — —, small-for-dates, normal, and maternal diabetic, glucose utilization in, 311
 — —, premature, oedema and haemolytic anaemia in, a vitamin-E deficiency syndrome, 310
 Infection, staphylococcal, in mice, pathogenetic study, 267
Infectious diseases, 272-3
 Influenza, *see also* Parainfluenza
 — mass vaccination, assessment of efficacy in USSR, 318
 — virus attenuation by serial passage, 267
 Iodine, protein-bound, level in blood in schizophrenia and affective states, 304
 Iron binding, gastric, in haemochromatosis, secondary iron overload, cirrhosis, and diabetes, 282
 — metabolism, effect of allopurinol on, 281
 Isantibodies to inherited types of β -proteins and immunoglobulins, serological and clinical aspects, 315
- Kidney, *see also* Nephrotic syndrome
 — cortex damage after experimental medullary necrosis, 259
 — disease, serum haptoglobin levels in, 261
 — effect of removal of renal papilla on, 259

 — glomerular filtration rate, measurement by inulin and ^{51}Cr -labelled edetic acid, comparison, 260
 — infarction in rheumatic heart disease, clinicopathological study, 291
 — transplantation, human, review of 35 cases, 294
- Lactase deficiency in cystic fibrosis, 314
 Leprosy, lepromatous, acute reaction, flufenamic acid treatment, 277
 — —, riminophenazine derivative, B663 in, 277
 Leukaemia, acute, in polycythaemia vera, pathogenesis, 292
 — —, remission with prednisone and intravenous methotrexate, 271
 Lipid levels in blood, reduction after subtotal gastrectomy, 283
 Lipomucopolysaccharidosis, a new storage disease, 282
 Lithium in manic-depressive psychosis, effect on thyroid function, 307
 — — recurrent depression, 307
 — poisoning, 320
 — salts in manic-depressive psychoses, metabolic balance studies, 306
 Liver, *see also* Hepatitis
 — cirrhosis, alcoholic, false positive liver scans in, 285
 — —, gastric iron binding in, 282
 — —, progression and regression in neonatal biliary atresia, 312
 — — with oesophageal varices, prophylactic portacaval anastomosis in, 285
 — during recovery from protein-calorie malnutrition, 263

SUBJECT INDEX

Liver failure, fulminant, halothane and, 286
 — in congenital rubella, histopathological study, 264
 — scan, false positive, in alcoholic liver disease, 285
 — interpretation confused by renal concentration of radiiodinated rose bengal, 323
 — scanning and echohepatography in detection of hepatic metastases of carcinoma of cardioesophageal junction, 323
 — transplantation, human, technique and case reports, 286
 Lung carcinoma, radiotherapy, physiological changes before and after, 324
 —, remote effects on nervous system, evaluation, 299
 — disease, chronic, left ventricular failure secondary to, 288
 —, ferruginous bodies in, prevalence at random necropsies, 263
 — function, regional, changes after bronchography, 322
 Lymphadenopathy initially diagnosed by biopsy as Hodgkin's disease or reticulum sarcoma, eventual diagnosis after second histological opinion, 265
 Lymphocyte transformation in lymphoproliferative disorders, chromosomes and, 261
 — response to encephalitogenic protein, delay in disseminated encephalomyelitis, 299
 Malaria parasites in blood, 24- and 48-hour cycles, purpose, production, and control, 267
 —, vivax, dapsone treatment, 277
 Malnutrition, protein-calorie, liver state during recovery from, 263
 Measles infection and live virus vaccination, effect on humoral immunity to smallpox, 317
 — vaccination with reduced dosage, 317
 Megakaryocytes, circulating, effect of surgery on concentration of, 262
 Melanoma, malignant, immunologically competent cells in treatment of, 309
 Meningitis, meningococcal, residual damage after, 273
 Metabolism, 281-4
 Methotrexate in dermatomyositis, 309
 — and prednisone in remission of acute leukaemia, 271
 Methoxyflurane, peripheral vascular effects in isolated forelimb, 321
 Metranidazole in tropical ulcer, 277
 Microbiology, 267-9
 Mongolism, maternal fertility in, 304
 —, neurological features, 304
 Monoamine oxidase inhibitors, hypoglycaemic action, 297
 Muscle biopsy, interosseous, during hand surgery for rheumatoid arthritis, 298
 — cramping, aching, or weakness after clofibrate administration, 270
 — disease, autoimmunity in pathogenesis, 302
 — weakness, proximal, in elderly subjects, 302
 Muscular atrophy, peroneal, sporadic cases, sensory disturbances associated with other clinical symptoms in, 303
 — dystrophy, urinary excretion of hydroxyproline in, effect of prednisone administration on, 303
 Mycoplasma, "T" strain, in female urogenital tract, relation to frequency of coitus, 275

Myocardial infarct evolution, influence of age on, 289
 — infarction, acute, urinary excretion of free noradrenaline and free adrenaline in, relation to clinical course, 290
 —, quinidine prophylaxis of arrhythmia in, 290
 —, second, clinical study, 289
 Myopathy, thyrotoxic, propranolol in, 303
 Mysteclin and tetracycline, comparative side-effects, 271
 Myxoedema, distribution of protein, lipid, and administered bromide between serum and cerebrospinal fluid in, 295
 Neoplasm, malignant, immunologically competent cells in treatment of, 309
 Nephrotic syndrome, serum haptoglobin levels in, 261
 — with heart disease, reappraisal, 294
 Neurology and neurosurgery, 299-303
 Neuropathy in cancer patients, 299
 Neurosyphilis, effect of treatment on clinical picture, 275
 Nitrous oxide and tubocurarine anaesthesia, circulatory effects of atropine during, 321
 Noradrenaline, free, urinary excretion in acute myocardial infarction, relation to clinical course, 290
 Nutrition, 281-4

Obesity, female, phenformin treatment, free fatty acid, glycerol, and alveolar acetone levels during, 283
 Oedema and haemolytic anaemia in premature infants, a vitamin E deficiency syndrome, 310
 Old age, *see* Senescence
 Oliguria, prolonged, in haemolytic-uraemic syndrome, survival after, 315
 Oxygenation, foetal, during Caesarean section, 321

Paediatrics, 310-6. For details *see* Children; Infants
 Pancreas, cystic fibrosis, lactase deficiency in, 314
 — scan, normal and abnormal, 323
 Parainfluenza virus Type 2, neutralizing activity in nasal secretions and serum in resistance to, 268
 Parasitology, 267-9
 Pathology, 259-66
 Pentaerythritoltetranicotinate in hypercholesterolaemia, 284
 Pertussis, *see* Whooping cough
 Perycit, *see* Pentaerythritoltetranicotinate
 Phagocytosis by human monocytes, 261
 Pharmacology, 270
 Phenformin in female obesity, free fatty acid, glycerol, and alveolar acetone levels during treatment, 283
 Phenobarbitone in low birth weight infants, effect on first week mortality rate, 310

SUBJECT INDEX

Hypogammaglobulinaemia in the United Kingdom, 364

Hypoglycaemia, association with symptoms in the newborn, 389

Hypokalaemia due to massive doses of sodium benzylpenicillin, 338

Hypoparathyroidism, relation of calcification of basal ganglia to, 383

Imipramine in enuresis, 392

Immunoglobulin deposits in human allografted kidneys, 331

— levels in serum in coeliac disease, 354

Industrial medicine, 395-7

Infants, newborn, association of hypoglycaemia with symptoms in, 389

—, —, sound intensity and respiratory responses in, comparison with cardiac responsiveness, 389

—, —, urinary tract infections in, 390

—, premature, large intravenous infusions in, 390

—, sudden death in, cardiac findings, 326

— with severe gastroenteritis, tolerance to dietary lactose, 390

Infectious diseases, 339-40

Influenza C virus, production of common colds by, 339

Inspiration, diaphragmatic, electrocardiographic changes after, 356

Iodine, radioactive, in thyrotoxicosis, leukaemia after, 372

—, —, —, results of treatment with and without interval therapy, 371

Iron absorption and utilization in idiopathic haemochromatosis, 348

Janus syndrome, causes, 400

Jejunum, lymphangiectatic cysts of, 328

—, three-dimensional structure in health and disease, 328*

Joint disease, association of intestinal disorders with, 378

— lubrication in animals, effect of chemical alterations of cartilage and lubricant, 375

Kidney, *see also* Nephrectomy; Nephritis; Nephropathy

—, allografted, deposits of immunoglobulin and fibrin in human recipients of, 331

— cell loss, urinary, effect of frusemide, lactose, and urea on, 333

— scanning, rapid sequential, 400

— transplantation, gastric acid secretion after, 369

—, tubular acidosis in cirrhosis, determinant of susceptibility to recurrent hepatic coma, 353

Lactose, dietary, tolerance of infants with severe gastroenteritis to, 390

— effect on urinary cell loss, 333

Leukaemia after radioiodine treatment of thyrotoxicosis, 372

— and mycoplasmas, relation between, 366

—, myelogenous, chronic, association of neoplastic reticulosis with, 325

Lipid, *see* Hyperlipidaemia

Lithium carbonate in affective disorders, clinical study, 386

— — chronic recurrent affective disorders, depression prophylaxis in, 386

Liver, *see also* Hepatitis

— cirrhosis associated with methotrexate treatment of psoriasis, 387

—, —, pregnancy in, management and outcome, 353

—, —, renal tubular acidosis in, determinant of susceptibility to recurrent hepatic precoma, 353

— dysfunction, reversible, nonmetastatic hypernephroma with, 370

— glycogenoses, metabolism of intravenous glycerol in, 353

Lucanthone hydrochloride in schistosomiasis mansoni, 345

Lung carcinoma arising in scars, 368

— disease, chronic obstructive, effect of cold air inhalation on ventilation in, 368

— transradiance, unilateral diffuse, 400

Lupus erythematosus, synovial membrane in, 380

—, —, systemic, implications of racial differences in Mantoux reaction after BCG vaccination in, 379

Lymphadenopathy, primary, complicating idiopathic steatorrhoea, 328

Lymphocyte(s) in congenital immunological deficiency states, 331*

— response in nonimmunized humans to antigen-antibody complexes, 331

— transformation in coeliac disease, 354

— test in diagnosis of rheumatoid arthritis, 377

Lymphoma, *see also* Burkitt's lymphoma

—, malignant, clinical staging, influence of modern radiological techniques on, 400

Malabsorption syndrome in Paget's disease of bone, 349

Malnutrition, postgastrectomy, 351

Measles, mass immunization in Los Angeles County, 395

Medroxyprogesterone in idiopathic isosexual precocity, 392

Memory changes with electric convulsion therapy, influence of Cylert on, 384

Meningitis, carbenicillin treatment, 338

Metabolism, 348-9

Methotrexate in psoriasis, liver cirrhosis associated with, 387

α -Methyl-p-tyrosine in pheochromocytoma, 373

Microbiology, 332

Microscopy, electron, in differential diagnosis of tumours, 329

Mitral, *see* Heart

Mongolism and maternal radiation, 394

Mononucleosis, cytomegalovirus, after open heart surgery, 340

—, infectious, biological false positive reactions and, 332

—, —, seroepidemiological studies with EB virus, 339

Morphine, effect on respiration, 336

Muscle, skeletal, involvement in scleroderma, 380

Myasthenia gravis, genetic study of 70 patients, 394

Mycoplasma, relation to leukaemia and related diseases, 366

Myocardial infarction, acute, dipyridamole treatment, 360

—, — early bradyarrhythmia in, incidence, significance, and management, 361

—, —, late ventricular dysrhythmias after, 361

—, —, oxygen inhalation in, circulatory and metabolic effects, 360

— ischaemia, transient, significance of dyspnoea, 359

Myocardium end-arteries, senile changes in, 327

Myxoedema, primary, thyroid hormone combination in, lipid and clinical response, 371

Neocompensan, *see* Povidone

Neoplasms, differential diagnosis by electron microscopy, 329

Nephrectomy, erythrocyte production rate after, 364

Nephritis, glomerular, diffuse, associated with infected ventriculoatrial shunt, 369

—, —, extramembranous, recovery of normal ultrastructure in, 370

—, hereditary haematuric, auditory lesions in, 327

—, —, pathology, 327

Nephropathy of analgesic abuse, renal accumulation of salicylate and phenacetin as possible mechanism in, 334

Neurology and neurosurgery, 381-3

Neuropathy, progressive peripheral sensorimotor, disorder of axons and Schwann cells, 381

Neurosyphilis, atypical serology in, 342

—, psychoses in, survey of 91 cases, 385

Neutropenia, chronic idiopathic, a newly recognized entity? 364

Nitroglycerine, *see* Glyceryl trinitrate

Noradrenaline, serotonin, and angiotensin, interactions on peripheral blood vessels, 335

Nutrition, 348-9

Obesity, peripheral glucose uptake in, effect of diet, sulphonylureas, and phenformin on, 374

Oesophagitis, suggested association with maximal acid output in hiatus hernia, 350

Onchocerciasis, diethylcarbamazine treatment for reduction of reservoir of transmissible microfilariae, 344

—, drug therapy, clinical trials, 345

Osteoarthritis of hip, age and weight in, 379

Osteogenesis imperfecta, pathogenesis, 330

Osteoporosis, high calcium diet and parameters of calcium metabolism in, 349

Oxygen inhalation in myocardial infarction, circulatory and metabolic effects, 360

— and inversion of respiratory cycle in chronic emphysematous cor pulmonale, 368

Pacemaker, epicardial and transvenous, comparison, 357

Paediatrics, 388-93. For details, *see* Children; Infants

Paget's disease of bone, malabsorption syndrome and, 349

Pancreatitis, acute, with infectious hepatitis, 354

Pancytopenia, role of phagocytosis in, 367

Parasitology, 332

Parathyroid, *see* Hyperparathyroidism

Pathology, 325-31

Pemphigus vulgaris and bullous pemphigoid, immunofluorescent serological tests, 387

Penicillin, *see also* Sodium benzylpenicillin

— resistant syphilis, 70 cases, 342

SUBJECT INDEX

An asterisk denotes title and reference only

Acetazolamide and sodium bicarbonate in salicylate poisoning in adults, 625
N-Acetylcysteine aerosol with a bronchodilator in chronic bronchitis, 594
 Acne pathogenesis, 615
 Adrenal cortex activity in depression, circadian rhythm of, 610
 Airways resistance, effect of scopolamine on, 563
 Ajmaline in investigation of combined conduction defects, 584
 Alcohol, with and without aspirin, effect on gastrointestinal bleeding, 580
 Alcoholism, chronic, creatine phosphokinase level in serum in, relation to development of myopathy, 609
 —, —, reversible megaloblastic and sideroblastic marrow abnormalities in, 559
 Aldosterone secretion rate in hypertension, correlation with plasma renin activity, 590
Allergy, 574-7
 —, cutaneous, to proteins of atypical mycobacteria in children, value of tests for, 570
 —, nasal, epidemiological relationship to eosinophils and to goblet cells in nasal smear, 574
 Amyloid, relationship to aging, review and systematic study, 561*
Anaesthesia, 626
 Angina pectoris, haemodynamic comparisons of atrial pacing and exercise in, 586
 Angiography, carotid, in polyarteritis nodosa, 627
 Angiolymphoid hyperplasia, subcutaneous, with eosinophilia, 615
 Angiotensin II levels in blood of normal and hypertensive subjects, 590
 Aorta, *see also* Subaortic
 — stenosis, cold pressor test in, 583
 Aortitis, nonsyphilitic, 559
 Arrhythmia, atrial fibrillation, cardiac output after direct current conversion of, 585
 —, —, electrical cardioversion, one-year follow-up study, 585
 Arteries, coronary, *see* Coronary
 Arthritis in sarcoidosis, 602
 —, rheumatoid, association with chronic leukaemia, 603
 —, —, cyclophosphamide in small doses for prolonged period in, 602
 —, —, destruction of distal epiphysis of ulna in, 603
 —, —, experimental model, 557
 —, —, hypertaurinuria in, 604
 —, —, intraarticular injection of radioactive colloidal gold or yttrium in, 602
 —, —, myocardial lesions in, 583
 Arvin in deep vein thrombosis, 588, 589
 L-Asparaginase for inhibition of malignant disease in man, 565
 Aspirin and alcohol, effect on gastrointestinal bleeding, 580
 — intake, effect on lesions associated with gastrointestinal haemorrhage, 580
 Asthma, *see also* Status asthmaticus
 —, bronchial, surgical removal of carotid body in, 576
 — exacerbations, prevention by disodium cromoglycate, 576

Asthma in children, effect of rapid change in humidity on pulmonary function studies in, 575
Bacteriaemia, clostridial, without haemolysis, 568
 Basilar impression, primary, in two families, clinical, radiological, and genetic study, 622
 Bed rest in myocardial infarction, impaired orthostatic tolerance after, 587
 Blind loop syndrome in children, 619
 Blood platelet ultrastructure in familial thrombocytopathic thrombocytopenia, 558
 — transfusion, *see also* Circulation, cross
 —, —, transfer of delayed hypersensitivity by, 577
 Body fluid balance, plasma renin activity in relation to, 589
 — measurements in Klinefelter's syndrome, 622
 Bone marrow morphology in polycythemia vera and myelocytosis, 558
 —, —, reversible megaloblastic and sideroblastic abnormalities in chronic alcoholism, 559
Brain, *see also* Cerebellum

- , hypoglycaemic, diazoxide treatment, 784
- , leukaemic, dermatoglyphic defects in, 790
- , —, passive cyclic immunization during remission period, 751
- , lymphocytopenia with Hodgkin's disease in, 752
- , malabsorption in, medium-chain triglyceride diets for, 781
- , obese, growth hormone response to oral glucose, 783
- , severe pulmonary stenosis in, 740
- Chlorine gas, ventilatory function after acute exposure to, 794
- Cholera vaccine field trial in rural East Pakistan, 1966-67, 731
- Chromosome aberrations in 2,159 consecutive newborn infants, 783
- in hypospadias, 788
- studies in erythroleukaemia, 713
- , XXX syndrome in tall men and juvenile delinquents, 788
- Circadian variation of ventilatory capacity in shift workers, 794
- Clam-associated hepatitis, epidemic, 793
- Clofibrate in diabetic retinopathy, 759
- Coal miners with chronic lung disease, lung function in, 795
- Coeliac disease, immunoglobulin M metabolism in, 737
- Cold stress metabolic response, temporary loss in premature infants, 777
- Colitis, ulcerative, chronic, serum α_1 -acid glycoprotein level as aid to diagnosis, 738
- , —, corticotrophin and prednisone in, adrenal and clinical responses, 737
- , —, gonadotrophin in, 738
- , —, skin lesions in, 738
- , —, small-intestinal histochemical and histological changes in, 717

SUBJECT INDEX

- Corticosteroid treatment, prolonged, effect on kidney, 721
- Corticotrophin in ulcerative colitis, adrenal and clinical responses to, 737
- induced changes in iron metabolism, 762
- Cortisol secretion in acidotic and non-acidotic juvenile diabetes mellitus, 760
- Coxsackievirus B2 causing paranecephalic Parkinsonism, 769
- Cushing's syndrome, oral metyrapone test and plasma adrenocorticotrophin content in determination of cause of, 757
- Cyproheptadine, weight increase with, 721
- Dapsone, low-dosage, in leprosy, 729
- Daunorubicin suppression of adjuvant arthritis, 761
- Death, sudden from ischaemic heart disease, correlation with hardness of local water supply, 793
- Debrisoquine sulphate, effect on "intrinsic" heart rate, 720
- Delinquency, juvenile, incidence of XYY syndrome in, 788
- Denture material allergy patch tests, yeasts as cause of false positive reactions in, 775
- Dermatoglyphic defects in children with leukaemia, 790
- Dermatology, 775
- Dexamethasone in tuberculous meningitis, 727
- Dexamphetamine in chronic alcoholism, comparison with lysergide, 773
- Di Guglielmo's syndrome, *see* Erythro-leukaemia
- Diabetes, *see also* Retinopathy
- , diameters of retinal vessels in, 758
- , mellitus, central visual field in, 758
- , evolution, diurnal variation of oral glucose tolerance as possible pointer to, 757
- , juvenile, complicated by hyperosmolality, 760
- , —, cortisol secretion in acidotic and nonacidotic cases, 760
- , —, high 24-hour level of serum growth hormone in, 759
- , —, role of growth hormone in metabolic homeostasis in, 759
- , —, pituitary polypeptide with hypoglycaemic action in, 757
- Diazepam and pethidine, alone and in combination, effect on respiratory response to carbon dioxide, 797
- , parenteral, in status epilepticus, 768
- Diazoxide in hypoglycaemia of infants and children, 784
- Digoxin and propranolol combined, haemodynamic effects, 719
- Diguanides in weight reduction of non-diabetic obese women, 735
- Dilantin, *see* Phenytoin
- Disaccharidase activity of small bowel, effect of neomycin on, 722
- Disodium cromoglycate in asthma, steroid sparing effect, 733
- , —, prevention of induced asthma, 733
- Dopamine in postencephalic Parkinsonism, 769
- Duodenum pH, measurement with radio-telemetric capsule, 737
- Dust, *see* House dust
- Dwarfism, low birthweight, with asymmetry, human growth hormone treatment, 783
- Dysentery, Sonne, nalidixic acid resistance developing during treatment, 794
- Ebstein's anomaly, diagnosis of mild form, 740
- Eczema, smallpox vaccination with attenuated live vaccine in, 791
- Electrocardiogram, influence of propranolol on functional alterations, 739
- , T-wave changes after artificial pacing, 741
- Electroencephalogram in centrencephalic epilepsy, 767
- Encephalitis, tick-borne, in Switzerland, 723
- Encephalopathy, Wernicke's, with extra-ocular palsy, thiamine therapy and recovery time, 734
- Endocrinology, 757-60

SUBJECT INDEX

Hemiplegia in infants and children, 785
 —, spastic, in limbs, muscle atrophy in, 765
 Hepatitis, clam-associated, epidemic, 793
 —, recurrent, due to halothane sensitization in an anaesthetist, 797
 —, viral, outbreak in municipal hospital, 793
 Hereditary disorders, cytogenetic and biochemical, antenatal detection, 780
 Heroin addiction, urine analysis in diagnosis and treatment, 714
 Herpes zoster, cutaneous nerve changes in, 775
 Hodgkin's disease in children, epidemiological study, 752
 —, lymphocytopenia in children with, 752
 —, radiotherapy, patient tolerance to, 800
 House dust allergy, mites, insects and, 732
 Huntington's chorea, tetraabenazine in, 769
 Hurler's syndrome, ascorbic-acid deficient diet in, failure of scurvy induction with, 734
 Hyaline membrane disease of premature infant, immediate effect of sodium bicarbonate on pulmonary circulation, 779
 Hydrocephalus, symptomatic occult, new clinical syndrome, 767
 Hyperbilirubinaemia, neonatal, central nervous system abnormalities after, prospective study, 778
 —, —, hearing problems after, 778
 Hyperkalaemia after suxamethonium administration causing cardiac arrest, 797
 Hypertension, catapres treatment, clinical trial, 746
 —, essential, prognosis in long-term treated and "untreated" cases, 745
 —, labile, mental stress in, blood pressure and catecholamine excretion after, 745
 —, portal, idiopathic, obliterative portal venopathy of liver associated with, 716
 —, pulmonary, in chronic nonspecific pulmonary disease, diagnosis and pathogenesis, 755
 —, renovascular, effect of posture on renal vein renin activity in, 746
 Hypoglycaemia in infants and children, diazoxide treatment, 784
 —, phenformin-induced, in normal subjects, 721
 Hypospadias, chromosome studies, 788
 Hypothyroidism, primary, growth hormone release in children with, 783
 Hytrast, pulmonary reaction to, 800

Immunofluorescence in diagnosis of acute bacterial meningitis, 718
 — patterns, nuclear, in systemic lupus erythematosus, rheumatoid arthritis, and other disorders, 717
 Immunoglobulin levels in cord serum in congenital rubella, 776
 — M metabolism in coeliac disease, 737
 Indomethacin in rheumatoid arthritis, 763
 Industrial medicine, 791-5
 Infants, bronchiolitic, resistance of total respiratory system in, comparison with normal healthy infants, 782
 —, hemiplegic, 785
 —, hypoglycaemic, diazoxide treatment, 784
 —, newborn, gastrointestinal perforation in, aetiology, 777
 —, —, oral glucose tolerance tests, pitfalls in interpretation, 780

Infants, premature, apnoeic, monitoring, incidence, heart rate changes, and effect of environmental temperature, 779
 —, —, suck and swallow mechanisms in, 777
 —, —, temporary loss of metabolic response to cold stress in, 777
 —, rumination in, near fatal disease, 786
 —, severe pulmonary stenosis in, 740
 Infectious diseases, 723-5
 Insulin, circulating level after arginine infusion, 757
 Intelligence and the gene for Duchenne muscular dystrophy, 786
 Intestines, haemorrhagic necrosis, terminal complication of chronic congestive heart failure, 716
 Iron deficiency manifested by beeturia, 781
 — without anaemia in young men, 747
 — metabolism changes induced by corticotrophin, 762
 Ischaemia of extremities due to chronic arterial occlusive disease, continuous intraarterial infusion therapy, 745
 Isoniazid treatment, haemolytic anaemia with positive Coombs' test associated with, 748
 Isoprenaline aerosol in asthma, 719
 Isosorbide dinitrate and propranolol in angina pectoris, 742

Kanamycin in gonorrhoea in the female, 728
 Kidney, see also Nephritis
 — disease, advanced chronic, vasopressin-resistant hyposthenuria in, 756
 — function, effect of long-term corticosteroid therapy on, 721
 Korsakoff's syndrome, postencephalitic, 773

Labyrinthitis in infants possibly manifested by paroxysmal torticollis, 786
 Lactate dehydrogenase isoenzymes, activity in serum in diagnosis of muscle diseases, 770
 — activity in urine in genitourinary tract disease, 714
 Lambliasis in adults, report of 500 cases, 725
 Latex-rabbit γ -globulin fixation test in diagnosis of rheumatoid arthritis, 717
 Leprosy, BCG vaccination in Uganda, 729
 —, lepromatous, low-dosage dapsone in, 729
 Leukaemia, acute, in children, passive cyclic immunization during remission period, 751
 —, —, with paroxysmal nocturnal haemoglobinuria, 748
 —, dermatoglyphic defects in children with, 790
 —, granulocytic, acute, paroxysmal nocturnal haemoglobinuria terminating in, 749
 —, lymphoblastic, acute, active immunotherapy, 751
 —, lymphocytic, chronic, increased incidence of neoplasia in association with, 750
 —, myeloblastic, acute, following paroxysmal nocturnal haemoglobinuria, 748
 —, serum and urinary muramidase activity in, 750
 Lidocaine, see Lignocaine
 Lignocaine in arrhythmia, 741

Lithium and thyroid function in manic-depressive illness, follow-up study, 774
 Liver, see also Hepatitis
 —, obliterative portal venopathy associated with idiopathic portal hypertension or tropical splenomegaly, 716
 — tumours, scintigraphic and arteriographic diagnosis, comparison, 799
 LSD, see Lysergide
 Lung calcification after adult chicken pox, 799
 — "metastatic", pathological study, 715
 — disease, chronic, polycythaemia in coal miners with, 795
 — function after acute exposure to chlorine gas, 794
 — infection, *Mycoplasma pneumoniae*, Stevens-Johnson syndrome associated with, 775
 Lupus erythematosus, systemic, nuclear immunofluorescent patterns in, 717
 Lymphocyte transfer, foetal/maternal, practical and theoretical implications, 788
 Lymphocytopenia in children with Hodgkin's disease, 752
 Lymphogranulomatosis, see Hodgkin's disease
 Lysergide in chronic alcoholism, comparison with dexamphetamine, 773

Malabsorption in children, medium-chain triglyceride diets in, 781
 Malaria, quartan, glomerulonephritis of, evidence for soluble immune complexes in pathogenesis, 717
 —, recent advances, 730*
 Manic-depressive illness, lithium and thyroid function in, follow-up studies, 774
 Mediastinum tumours, diagnosis, treatment, and prognosis, 755
 Meningitis, bacterial, acute, diagnosis by immunofluorescence, evaluation, 718
 — meningococcal, benzylpenicillin in, 724
 —, tuberculous, dexamethasone in, 727
 Meningocele, intrathoracic, development and association with neurofibromatosis, 764
 Metabolism, 734-5
 Methyl bromide poisoning, review of 10 cases, 795
 Methylidopa, effect on "intrinsic" heart rate, 720
 Metyrapone test, oral, in determination of cause of Cushing's syndrome, 757
 Microbiology, 718
 Microenvironment, human, aerodynamics of, 791
 Movement disorders, extrapyramidal, tetraabenazine treatment, 769
 Muramidase activity in serum and urine in leukaemia and other haematological malignancies, 750
 Muscle atrophy in spastic hemiplegic limbs, 765
 — diseases, diagnosis by use of serum lactate dehydrogenase isoenzyme tests, 770
 Muscular dystrophy, Duchenne, electrocardiographic abnormalities in female carriers, 770
 —, —, intelligence and the gene for, 786
 — and Pelger-Huet anomaly, genetic study of family with both conditions, 790
 —, sodium lactate treatment, 770
 Myasthenia gravis, peptic ulcer in, 771

SUBJECT INDEX

Myocardial infarction, acute, free nor-adrenaline and adrenaline excretion in relation to development of arrhythmias and heart failure in, 743
 —, —, radiological diagnosis, 798
 —, —, posterior and anterior, heart block in, 743
 —, —, prolonged anticoagulant treatment after, 744
 Myoma, atrial, treatable cause of stroke, 764

Nail clipping test, simplified, in diagnosis of cystic fibrosis, 713
 Nalidixic acid in chronic bacteriuria, 756
 —, —, Sonne dysentery, development of resistance during treatment, 794
 Napkin rashes, *Candida albicans* infection in, 787
 Neomycin, effect on disaccharidase activity of small bowel, 722
 Nephritis, glomerular, of quartan malaria, evidence for soluble immune complexes in pathogenesis, 717
 Nerve root syndrome, origin, 772
 Nerves, cutaneous, changes in herpes zoster, 775
 —, trigeminal, involvement in Sjögren's syndrome, 772
 Nervous system, central, abnormalities after haemolytic disease of the newborn or neonatal hyperbilirubinaemia, 778
 Neurofibromatosis, association of intrathoracic meningocele with, 764
 Neurology and neurosurgery, 764-72
 Neuropathy, degenerative tropical, relation to diet, 729
 Nitrogen and fat balance, changes following use of medium chain triglycerides after massive intestinal resection, 737
 Noradrenaline, free, excretion, relation to development of arrhythmias and heart failure in acute myocardial infarction, 743
 Nutrition, 734-5

Obesity in children, growth hormone response to oral glucose in, 783
 —, —, nondiabetic women, weight-reducing effect of diguanides in, 735
 Oesophagus, distal, in achalasia, physiological study, 736
 Orchidopexy, anatomically successful, histological changes in testis after, 782
 Orciprenaline aerosol in asthma, 719
 Osteomalacia, nutritional, 734
 Osteoporosis in rheumatoid arthritis, follow-up study, 762
 Oxolinic acid in chronic bacteriuria, 756
 Oxy-mix aerosol in chronic bronchitis, 754

Pacemaker, artificial, T-wave changes after, 741
 Paediatrics, 776-87. For details, see Children; Infants
 Pancreas secretion, exocrine, influence of glucagon on, 719
 Pancreatitis, acute, arteriographic diagnosis, 799
 Pancytopenia with hypercellular haemopoietic tissue, 747
 Parasitology, 718
 Parkinsonism, para-encephalitic, acute case due to Coxsackievirus B2, 769
 —, postencephalitic, dopamine treatment, 769

Pathology, 713-7
 Pelger-Huet anomaly and muscular dystrophy, genetic study of family with both conditions, 790
 Penicillin G, see Benzylpenicillin
 Penicillin, oral, penicillin-resistant α streptococci in pharynx after, 718
 Penicillinase-producing enterobacteria, "indirect pathogenicity" in chronic bronchial infections, 722
 Pethidine and diazepam, alone and combined, effect on respiratory response to carbon dioxide, 797
 Pericardium tumours, secondary, clinical diagnosis, 739
 Pharmacology, 719-21
 Pharyngitis, streptococcal, food-borne epidemic, 792
 Phenformin-induced hypoglycaemia in normal subjects, 721
 Phenytoin in arrhythmias, 742
 Phlebography, adrenal, of benign tumours, 800
 —, renal, 800
 Pituitary ablation in diabetic retinopathy, serum growth hormone levels and response to, 758
 —, hormone, anterior, circulating level after infusion, 757
 —, polypeptide with hypoglycaemic action in diabetes mellitus, 757
 —, tumours, adrenocorticotrophin-secreting, pathophysiology and ocular manifestations, 757*
 Platelet, see Blood
 Pneumonia, bacterial, after virus infection of respiratory tract, 753
 —, eosinophilic, chronic, 754
 —, *Pneumocystis carinii*, diagnosis and treatment in patients with associated malignant disease, 725
 —, recurrent, predisposing illness and clinical patterns, 753
 Pollinosis in children, immunotherapy, 732
 —, ragweed, in the Lyons region, 732
 Polycythaemia in coal miners with chronic lung disease, 795
 —, rubra vera, platelet adhesiveness in, 747
 Potassium, see Hyperkalaemia
 Prednisone in ulcerative colitis, adrenal and clinical responses to, 737
 Progeria, classic, metabolic studies in two boys, 780
 Propranolol and digoxin combined, haemodynamic effects, 719
 —, influence on functional alterations of electrocardiogram, 739
 —, and isosorbide dinitrate in angina pectoris, 742
 Protein allergy, gastrointestinal, immunological considerations, 781
 Proteinosis, focal pulmonary alveolar, in pulmonary tuberculosis, 715
 Psychiatry, 773-4
 Public health, 791-5
 Purpura, thrombocytopenic, refractory idiopathic, azathioprine treatment, 749
 Pyrantel pamoate in enterobiasis, 725

Radiology, 798-800
 Radiotelemetry in measurement of duodenal pH, 737
 Ragweed pollinosis in the Lyons region, 732
 Raynaud's phenomenon, effect of reserpine on, 744
 Reflex, patellar, depression with cigarette smoking, 720
 Reflux, vesicoureteral, epididymitis in prepubertal boys as presenting manifestation of, 783

Relapsing fever, clinical and microbiological review, 723*
 Renin activity in renal vein in hypertension, effect of posture on renovascular hypertension, 746
 Reserpine, effect on "intrinsic" heart rate, 720
 —, in Raynaud's phenomenon, 744
 Respiratory disease, chronic, factors influencing onset, 792
 —, viral, γ -globulin prophylaxis, 723
 —, infection, viral, diagnosis by electron microscopy, 718
 —, system, 753-5
 —, resistance in normal healthy infants and those with bronchiolitis and
 Retinal vessels, diameters in diabetic and normal subjects, 758
 Retinopathy, diabetic, clofibrate in, 759
 —, response to pituitary ablation, serum growth hormone levels and, 758
 Rheumatic diseases, 761-3
 Rheumatoid, see also Arthritis
 —, factor, relation to age of onset in juvenile rheumatoid arthritis, 763
 Rubella, congenital, serum immunoglobulin levels in infants with, 776
 —, maternal, after first trimester of pregnancy, adverse foetal reaction, 776
 —, vaccine trial in children, 791
 Rumination in infants, near fatal disease, 786

"Safari fever", bilharziasis as cause of, 730
 Salbutamol aerosol in asthma, 719
 Schizophrenia relapse, more rapid improvement on milk- and cereal-free diet, 774
 Scintigraphy in diagnosis of liver tumours, comparison with arteriography, 799
 Sclerosis, multiple, sexual impotence and autonomic disturbances in men with, 764
 Scurvy induction by ascorbic acid depletion, failure in Hurler's syndrome, 734
 Septicaemia, effect of treatment on mortality rate, 724
 Sexual impotence and autonomic disturbances in men with multiple sclerosis, 764
 Shift workers, circadian variation of ventilatory capacity in, 794
 Sjögren's syndrome, involvement of trigeminal nerve in, 772
 Skin carcinoma, occupational, a declining disease?, 795
 —, lesions in ulcerative colitis, 738
 Smallpox vaccination in eczema with attenuated live vaccine, 791
 Smoking, see Tobacco
 Sodium bicarbonate, immediate effect on pulmonary circulation in hyaline membrane disease of premature infant, 779
 —, fluoride, effect on calcium absorption and balances, 734
 —, lactate in muscular dystrophy, 770
 Somatotrophin, see Growth hormone
 Splenomegaly, tropical, obliterative portal venopathy of liver associated with, 716
 Spondylitis, ankylosing, juvenile, 763
 —, —, onset in childhood, 784
 Status epilepticus, parenteral diazepam in, 768
 Stevens-Johnson syndrome associated with *Mycoplasma pneumoniae* infection, 775
 α -Streptococci, penicillin-resistant, in pharynx after oral penicillin, 718

SUBJECT INDEX

- Stress, mental, in labile hypertension, blood pressure and catecholamine excretion after, 745
- Stroke, atrial myoma a treatable cause of, 764
- Sucking behaviour in premature infants, 777
- Suxamethonium administration, hyperkalaemia after, causing cardiac arrest, 797
- Swallowing behaviour in premature infants, 777

SUBJECT INDEX

- Rhinitis, chronic perennial, dexamethasone snuff in, 859
 Rubella virus antigen, rapid identification from throat swabs, 824
 Rubidomycin, *see* Daunorubicin
- Sand blasters, acute silicoproteinosis in, 884
 Schizophrenia, acute, community treatment, negative result, 875
 —, chronic, perphenazine and P-5227 in, comparison of clinical and electroencephalographic effects, 875
 —, paranoid, and paraphrenia, differentiation, 875
 —, serum, influence on activity of succinic dehydrogenase and lactate dehydrogenase of brain of experimental animals, 874
 Scintiangiography, coeliac, 888
 Sclerosis, multiple, fluorescent protein tracing of brain tissue in, 821
 —, —, skeletal muscle involvement in, 867
 Senescence, *see also* Geriatric
 —, vitamin C supplementation in, 841
 Serenitil, *see* Mesoridazine
 Shoulder capsulitis, local corticosteroid injection, factors influencing response to, 865
 —, "frozen", x-ray and ultrasonic therapy, 865
 Shunt, *see* Circulation
 Sickle cell disease, glucose-6-phosphate dehydrogenase deficiency and haemolytic crisis of, 856
 Silicosis, acute, in sand blasters, 884
 Smoking, *see* Tobacco
 Sodium penicillin G, *see* Benzylpenicillin
 Somatotrophin, *see* Growth hormone
 Spasticity, prazepam in, 831
 Sphincter, gastroesophageal, hyperactivity, manometric and clinical characteristics, 843
 Spironolactone, effect on myocardial hyperexcitability in decompensated heart disease, 853
 Sprue, tropical, malabsorption of folate polyglutamates in, 837
 ST-155, pharmacodynamic effects, 829
 —, urinary catecholamine excretion response to, long-term clinical study and serial determination, 828
Staphylococcus aureus, penicillin-resistant hospital strains, induction of penicillin susceptibility in, 826
 Starvation in obesity, gross fragmentation of cardiac myofibrils after, 842
- Sterol test in diagnosis of brain tumours, 821
 Stomach "freezing" in duodenal ulcer, evaluation, 845
 Subluxation, atlantoaxial, in rheumatoid arthritis, 866
 Suicide, attempted, changing pattern in Edinburgh, 871
 —, —, in social networks, 870
 Sunlight exposure, protective effect of oral vitamin A, 877
 Synacthen, *see* Tetracosactrin
 Synovial collagenase in culture from joint disease of diverse aetiology, 865
 Syphilis, *see also* Neurosyphilis
 —, cardiovascular, epidemiological and serological study, 836
 —, fluorescent treponemal antibody-absorption test in treated latent and late cases, 835
 —, in pregnancy, false positive serological tests, 835
 —, Reiter protein complement fixation test, false positive reactions, 835
- Tachypnoea, transient, of newborn infants, radiological findings, 887
 Tetracosactrin in adrenocortical function test, 864
 Thalassaemia trait and glucose-6-phosphate dehydrogenase deficiency, haematological effects and interaction between the two genes at phenotype level, 881
 Therapeutics, 827-31
 Thromboembolism and oral contraceptives, relation between, 830
 Thymoxamine ointment in peripheral vascular disease, 847
 Thyrocalcitonin, *see* Calcitonin
 Thyroid nodules, solitary, prediction of malignancy in, 862
 —, radioablation in Graves' disease with high levels of long-acting thyroid stimulator, 863
 —, suppression by triiodothyronine in Graves' disease before and after treatment, 864
 —, tumours, benign and malignant, differential diagnosis by angiography, 887
 Thyrotoxicosis haemodynamics, influence of propranolol on, 862
 —, ¹²⁵Iodine treatment, 863
 —, propranolol treatment, 863
 Tobacco smoking, cardiovascular and respiratory symptoms in relation to, study on twins, 883
- Tobacco smoking, decreased life expectancy with, study in Seventh Day Adventists, 883
 Tofranil, *see* Imipramine
 Toxicology, 885
 Toxoplasmosis and lymphoma, similarity and coexistence, 855
 Trasacor in angina pectoris, 851
Treponema pallidum morphology, electron microscopic study, 824
 Tropical medicine, 837-8
 Tubercle bacillus, *see* *Mycobacterium tuberculosis*
 Tuberculin reaction, modification by repeated testing, 834
 Tuberculosis, 834
 Twinning, association of Rh type and gynaecological disease with, 882
 Twins, cardiovascular and respiratory symptoms in relation to tobacco smoking in, 883
 —, identical, drug-induced aplastic anaemia in, 855
- Ulcer, duodenal, gastric "freezing" in, evaluation, 845
 —, gastric, deglycyrrhizinized liquorice in, clinical trial, 844
 Ultrasonic therapy of "frozen shoulder", 865
 Urogenital system, 860
- Vagotomy, lactose malabsorption as cause of milk intolerance, dumping, and diarrhoea after, 843
 Vascular disease, peripheral, thymoxamine ointment in, 847
 Venereal diseases, 835-6
 Vibration, mechanical, effect on metabolic processes of cartilage, 884
Vibrio cholerae, neutralization of vascular permeability in man, 837
 Vinblastine in Hodgkin's disease, 858
 Vitamin A, oral, protective effect against exposure to sunlight, 877
 —, C supplementation in the elderly, 841
- Whooping cough, prednisone with antibiotics in, 833
- X-irradiation of "frozen shoulder", 865

SUBJECT INDEX

An asterisk denotes title and reference only

- Accumulator factory, lead absorption in, investigation with use of personal samplers, 968
- Acetone concentration in breath in diabetes, correlation with blood sugar measurements, 939
- N-Acetylcysteine in abdominal pain in cystic fibrosis, 958
- Acidaemia as a complication of salicylate poisoning in adults, 970
- Acidosis, role in renal osteomalacia, 912
- Acromegaly, active, with anterior pituitary failure, 936
- Adrenal inhibitor, effect on hypertension with subnormal plasma renin activity, 927
- β -Adrenergic blocking agent, cardio-selective, in angina pectoris, 901
- Airway conduction in normal and asthmatic subjects, effects of β -adrenergic blockade on, 931
- obstruction, chronic, effect of nebulized bronchodilators on air flow resistance in, 932
- , —, prediction of survival of patients with, 932
- Allergy, 910
- , skin reactions to anti- γ E antibody in atopic, nonatopic, and immunologically deficient children and adults, 910
- Alprenolol in persistent ventricular ectopic beats, 921
- Amino acid levels in plasma in Huntington's chorea, 889
- Amitriptyline poisoning, cardiac abnormalities in, 969
- Anaemia, haemolytic, microangiopathic, and pathogenesis of malignant hypertension, 927
- in coalworkers due to haemodilution, 967
- hookworm disease, relation to functional and structural changes of jejunum, 909
- , megaloblastic, in pregnancy and lactation, pigmentation associated with, 928
- , pernicious, in the Chinese, clinical and immunological study, 928
- , —, polycythaemia rubra vera with, vitamin B₁₂ metabolism in, 928
- Anaesthetics, 971-2
- Analgesia, obstetric, methoxyflurane in, 971, 972
- assessment, experimental production of pain in man for, 900
- Angina pectoris, cardioselective β -adrenergic blocking agent, ICI 50172, in, 901
- with normal and abnormal coronary arteriograms, haemodynamic and clinical aspects, 923
- Angiography in acute gastrointestinal haemorrhage, experimental basis and clinical results, 974
- primary hepatic tumours in children, 974
- Wilms' tumour, 974
- Antibiotics, effect on induction, viability, and reversion potential of L-forms of *Haemophilus influenzae*, 896
- Antibody, skin-sensitizing, effects of β -propiolactone on, 910*
- Anxiety, Ro5-4556 in, 949
- Aorta, see also Subaortic
- Aorta stenosis, syncope and sudden death in, 920
- Apoplexy, cerebral, transient embolic occlusion of middle cerebral and internal carotid arteries in, 948
- Aptin in maintenance of sinus rhythm obtained by electroconversion, 922
- Arachnoidism, chronic at foramen magnum causing syringomyelia, 946
- Arrhythmia, atrial fibrillation, atrial thrombosis and systemic embolism in, 891
- due to acute myocardial infarction, practolol in, 922
- during oral surgery with halothane-nitrous-oxide-oxygen anaesthesia, 971
- , electroconversion therapy, maintenance of sinus rhythm by Aptin, 922
- , persistent ventricular ectopic beats, alprenolol in, 921
- pharmacology, review, 902*
- , ventricular, temporary control by drug-induced sinus tachycardia, 922
- Arteries, coronary, see Coronary
- , middle cerebral and internal carotid, transient embolic occlusion in cerebral apoplexy, 948
- , umbilical, single, study of 112 cases, 957
- Arteriography, peripheral and abdominal, by Seldinger technique in infants and children, 973
- Arthritis, see also Osteoarthritis
- , rheumatoid, azathioprine in severe cases, 943
- , —, bacterial L-forms in blood and joint fluids in, 896
- , —, serum kynurenine level in, 943
- , —, synovectomy and debridement of knee in, historical review and clinical and radiological study, 944
- Arthropathy in the longer leg in cases of inequality, 942
- Arvin treatment, changes in platelet behaviour during, 902
- L-Asparaginase in acute lymphatic leukaemia, 903
- Asthma, allergic, due to basidiospores, 910
- , effect of propranolol on airway conductance and lung volume in, 931
- Autoantibodies in vitiligo, 955
- Azathioprine in severe rheumatoid arthritis, 943
- Bacillus subtilis* derivatives containing proteolytic enzyme, pulmonary disease due to inhalation of, 967
- Bacteriuria, asymptomatic, in girl entrants to Dundee primary schools, 935
- Barbiturate, short-acting, acute poisoning with, clinical and medicolegal aspects, 970
- Benziodarone in gout, 945
- Benzodiazepine with anxiolytic and sedative properties, clinical trial, 949
- Betamethasone in bronchiolitis of infants and children, 960
- Biliary disease, chronic extrahepatic, elevation of serum glutamic oxalacetic transaminase and lactate dehydrogenase activities in, 915
- Bladder aspiration, percutaneous suprapubic, bacteriological studies in infants and children, 962
- Blood circulation, see Circulation
- coagulation disorders, see also Haemophilia
- , —, prothrombin concentrate treatment, 929
- donors, correlation of disease and infectivity with hepatitis antigen, 898
- platelet behaviour changes during Arvin treatment, 902
- , — during and after open-heart surgery, 930
- pressure, venous, normal ventral, significance of reference point and normal range, 918
- viscosity and suspension characteristics, effect of low-molecular-weight dextran on, 902
- volume in macroglobulinaemia and myeloma, 929
- Bone marrow plasma, muramidase activity in haematologically normal subjects and in granulocytopenia, 890
- necrosis, aseptic, and corticosteroid therapy, 943
- Breast carcinoma, effects of mediastinal irradiation on respiratory function after mastectomy for, follow-up study, 976
- Bromism, rapid screening test for, 970
- Bronchiolitis in infants and children, betamethasone in, 960
- Bronchodilator, nebulized, effect on air flow resistance in chronic airways obstruction, 932
- Caerulein, cholecystokinetic activity, 900
- Calcium, see also Hypocalcaemia
- carbonate therapy, long-term, in uraemia, 933
- crystalluria in recurrent renal stone formers, 935
- excretion, urinary calcium:creatinine ratio as measure of, 889
- , —, in primary hyperparathyroidism, 936
- , ionized, level in serum in chronic renal failure, 933
- Candida albicans*, oral administration, fungaemia and funguria after, 906
- Carbohydrate tolerance in elderly subjects, 941
- Cardiovascular system, 918-27
- , influence of hot environments on, study of cardiac patients at rest, 918
- Cerebrospinal fluid dynamics in hydrocephalus, radioisotope study, 964
- immunoglobulins in syphilis, 907
- CG 662 in variola major, 906
- prophylaxis of contacts of variola major, 906
- Chemotherapy, 903-4
- Chest diameter, anteroposterior, in emphysema, 931
- Chickenpox, see Varicella
- Children, see also Infants
- , chronic polyneuritis in, 964
- , congenital heart defects in, effect of surgery and other variables on growth, 959

SUBJECT INDEX

- Children, genu varus and valgus in, radiological study, 975
 —, growth hormone deficiency in, assessment, 962
 —, idiopathic hypoglycaemia in, 958
 —, penicillin allergy in, immunological tests in diagnosis, 910
 —, percutaneous suprapubic bladder aspiration in, bacteriological study, 962
 —, peripheral and abdominal arteriography by Seldinger technique in, 973
 —, primary hepatic tumours in, angiographic diagnosis, 974
 —, psychotic, clinical and electroencephalographic studies, 950
 —, ulcerative colitis in, alternate-day corticosteroid treatment, 959
 Chlorine gas, respiratory effects, 968
 Chondrocalcinosis, primary articular, clinical manifestations, 942
 Christmas disease, prothrombin concentrate treatment, 929
 Chromosome, XYY syndrome and XYY/XXYY mosaicism showing features of Klinefelter's syndrome, 965
 Circulation, hepatic and portal, in portal hypertension, radioisotope investigation, 915
 — shunts, extrapulmonary, in cyanotic congenital heart disease after surgical correction, 920
 Coalminers, haemodilution as cause of anaemia in, 967
 Coeliac disease in adults, serum immunoglobulin levels in, 916
 — children, gluten-free diet in, effect on prognosis in early adult life, 959
 Colitis, ulcerative, in children, alternate-day corticosteroid treatment, 959
 Colon carcinoma and smoking in Poland, 913
 — dilatation, toxic, aetiology, treatment, and prognosis, 917
 Convulsion, neonatal, hypocalcaemia in, significance, 957
 Coronary arteriogram, normal and abnormal, in angina pectoris, haemodynamic and clinical aspects, 923
 — arteriography in valvular heart disease, 920
 — disease and sudden death, relation of premature systoles to, epidemiological study, 924
 Corticosteroid(s) in ulcerative colitis in children, alternate-day treatment, 959
 — treatment and aseptic bone necrosis, 943
 —, high dosage, in septic shock, 901, 902
 "Creeping" phenomenon of gastric mucosa, 973
 Criminality and psychiatric disorders, 950
 Croup, dexamethasone in, 961
 Cytomegalovirus infection and post-perfusion syndrome, 905
 Death, sudden, in aortic stenosis, 920
 —, in coronary disease, relation of premature systoles to, epidemiological study, 924
 Defibrillation, therapeutic, in priapism, 926
 Dentistry, conservative, physiological response to intermittent methohexitone in, 971
 Depression, insensitivity to hypoglycaemia and hypothalamic-pituitary function in, 950
 Dermatitis, primary irritant, of scrotum due to hexachlorophane, 954
 Dermatology, 954-5
 Desipramine poisoning, cardiac abnormalities with, 969
 Detergent, proteolytic enzyme-containing, lung disease due to inhalation of, 967
 Dexamethasone in croup, 961
 — suppression test, paradoxical response phenomenon, 936
 Dextran, low-molecular-weight, effect on viscosity and suspension characteristics of blood, 902
 Diabetes mellitus, breath-acetone concentration, correlation with blood sugar measurements, 939
 —, erythrasma in, 954
 —, growth hormone and glucose interrelationships in, 940
 —, juvenile, serum lipids and lipoproteins in untreated cases, 940
 —, steroid-stress, early insulin response to intravenous glucose in, 940
 — and gout, study of possible relationship, 945
 Dibromomannitol in chronic myeloid leukaemia, 930
 Dicophane, oral, in nonhaemolytic unconjugated jaundice, 900
 Disaccharide intolerance secondary to gastroenteritis in premature unit, 957
 Disinfectant, quaternary ammonium, fatal poisoning with, 969
 L-Dopa, effects in Parkinsonism, 948
 Drug resistance and R factors in bowel bacteria of London patients before and after hospital admission, 897
 —, transferable, in enterobacteria isolated from urban infants, 897
 Effusion, chronic synovial, in knee, intra-articular injection of radioactive gold in, 942
 —, postmeningitic subdural, management, 963
 Electroencephalography, recent advances, review, 950*
 Embolism, acute pulmonary, resolution rate, 925
 —, systemic, in atrial fibrillation, 891
 Emphysema, anteroposterior chest diameter in, 931
 Endocrinology, 936-41
 Enteric bacteria from urban infants, transferable drug resistance in, 897
 Epilepsy, severe type in children, 963
 Erythrasma, diabetes mellitus in, 954
 Erythrocyte shape in hypothyroidism, 890
 Exercise response and lung function in systemic sclerosis, 945
 Factor VIII prophylaxis of severe haemophilia, 928
 Fat tolerance test, intravenous, in hypertriglyceridaemia, 911
 Fibrillation, see Arrhythmia
 Fibrosis, cystic, abdominal pain in, *n*-acetyl cysteine in, 958
 —, bronchial staphylococcal infection in, 896
 —, pulmonary, in children, adolescents, and young adults, 961
 Fluspirilene, clinical evaluation, 949
 Forensic medicine, 969-70
 Fungaemia and funguria after oral administration of *Candida albicans*, 906
 Gastric juice, effect on iron absorption in gastric atrophy, 914
 Gastrin secretion, G cells of pyloric mucosa the probable site of, 914
 — test, evaluation and simple modification, 914
 Gastroenteritis with secondary disaccharide intolerance, outbreak in premature unit, 957
 Gastroenterology, 913-7
 Genetics, medical, 965
 Genu varus and valgus in children, radiological study, 975
 Glioma, cerebral, direct irradiation of, 976
 Glomerulonephritis, see Nephritis
 Glucagon in islet cell adenoma of pancreas, demonstration by immunofluorescent technique, 893
 Glucose tolerance, influence of physiological fluctuations in plasma growth hormone levels on, 939
 Glutamic oxalacetic transaminase activity in serum in chronic extrahepatic biliary disease, elevation of, 915
 Gold, radioactive, intraarticular injection in chronic synovial effusion in knee, 942
 Gonococcus identification by combined use of fluorescent antibody technique and culture on selective medium, 897
 Gout, benziodarone in basic treatment, 945
 — and diabetes mellitus, study of possible relationship, 945
 Granulocytopenia, muramidase activity in bone marrow plasma in, 890
 Granulomatous disease, chronic, evidence for autosomal mode of inheritance, 965

SUBJECT INDEX

- Mallory-Weiss syndrome, radiological diagnosis, 974
- Malnutrition and mental development, ecological variables in, 958
- Marboran in variola major, 906
- prophylaxis of contacts of variola major, 906
- Mastectomy, effect of mediastinal irradiation on respiratory function after, follow-up study, 976
- Maxolon, *see* Metoclopramide
- Measles virus vaccine combined with smallpox vaccine, attenuated form, clinical and laboratory study, 966
- Melphalan, different dose regimens, in combined chemotherapy of multiple myeloma, 929
- Mental development and malnutrition, ecological study, 958
- Metabolism, 911-2
- Methacycline in nonspecific urethritis, comparison with tetracycline, 907
- Methohexitane, intermittent, in conservative dentistry, physiological responses to, 971
- Methoxyflurane in obstetric analgesia, comparison with nitrous oxide, 971, 972
- Metoclopramide, effect on intragastric pressure and motility, 900
- Microbiology, 896-9
- Mithramycin, clinical studies, 903
- Mononucleosis, infectious, cold-reactive rheumatoid factor in, 894
- Motor behaviour in schizophrenia, 951, 952
- Mucinoses, follicular, study of 47 cases, 955
- Mucormycosis, *see* N-Acetylcysteine
- Muramidase activity of bone marrow plasma in haematologically normal subjects and in granulocytopenia, 890
- Muscles, abdominal, congenital absence, clinical findings and survival, 961
- Muscular dystrophy, oesophageal and pulmonary disturbances in, 946
- , X-linked, mild and severe forms, 946
- Myasthenia gravis, muscle-precipitating antibodies correlated with positive immunofluorescence in, 895
- Myelinolysis, central pontine, in children and adolescents, 964*
- Myeloma, blood volume and haematocrit in, 929
- , multiple, combination chemotherapy with different melphalan dose regimens, 929
- Myocardial infarction, acute, cardiac arrhythmias due to, practolol treatment, 922
- , —, and plasma phospholipid levels, 889
- , —, with complete heart block, first-year follow-up after recovery, 925
- ischaemia and necrosis in young women with normal coronary arteriograms, relation to abnormal haemoglobin-oxygen dissociation, 924
- Myotonic dystrophy, plasma insulin levels in, 941
- Nephritis, glomerular, "apparently healed" acute poststreptococcal, in children, natural history, 962
- Nephrography, prolonged, relation of Tamm-Horsfall proteinuria to, 975
- Nephrotic syndrome in African children, immune complexes in, 894
- Neurology and neurosurgery, 946-8
- Nitridazole in urinary schistosomiasis in children, 908
- Nitrogen retention of premature infants, effect of protein intake on, 956
- Nortriptyline poisoning, cardiac abnormalities with, 969
- Nutrition, 911-2
- Obesity, insulin release in response to oral glucose in, effect of reduction of body weight, 911
- Oedema, pulmonary, in infants with respiratory distress, 891
- Oesophagus carcinoma and smoking in Poland, 913
